

# Gunnebo SafeRecycling RS3

Flexible recycling solution for a changing  
world

## Flexible recycling solution for a changing world

The RS3 is a full recycling solution with one of the smallest footprints on the market. This makes it ideal for retail stores, hotels or petrol stations. This versatile and compact cash recycling solution can be used in both frontoffice and backoffice operations for float dispensing, deposits, money exchange and cash replenishment. And with our monitoring software, you have online reporting and monitoring tools for real-time cash level tracking and full accountability of all cash going in and out. In addition, this monitoring software gives you the ability to connect with your CIT or banking partner to get same day value / pre-credit for deposits into the acceptance cassette (up to 1500 notes).

- **Footprint:** All the benefits of a full cash recycler but with a minimal footprint.
- **Security:** Notes stored in a certified safe.
- **Software:** Real-time cash level tracking and remote monitoring via monitoring software. Full accountability of all cash going in and out.
- **Savings:** Save time and money through better cash process efficiency and improved cash collection planning.
- **Pre-Credit:** Details of cash deposits automatically sent to your bank.
- **User-Friendly:** Simple and easy-to-use system – no need to train operators and supervisors on new procedures.

### Features and Benefits

- **Functions:** Float dispensing, deposit of sales, multi-currency deposit, exchange of money, cash replenishment, and user management.
- **Scalable:** Highly configurable modules – recycling, acceptance, loading cassettes and reject cassettes can be combined as required.
- **ROI:** Cost savings made through optimisation result in quick return on investment.
- **Validation:** High-level validation technology with a capacity of up to 43 templates. ECB Article 6 compliant.

## Benefits

Reliability

Security

Versatility

Efficiency

Accuracy

## Monitoring Software

Gunnebo's monitoring software is a web-based application which gives retailers the power to control and monitor the cash handling process online. Via this software, cash management data from every machine in the network can be accessed by retailers, head office and or shared with external partners, like CIT, service and banking services.

Cash levels can be monitored in real time and end-of-day accounting is performed automatically without the need for employees to manually count cash. Retailers can even monitor the amount of cash collected by CIT across a chain of stores.

Monitoring software's reporting tools help optimise performance and ensure that in-store security routines are being followed. In addition, technicians can use the application to remotely maintain, update and service SafeRecycling machines, which means increased uptime and a more reliable closed cash handling process.

### Online Cash Management

- Web-based application to manage all stores within retail chain with reports accessible from any PC on the network
- Online connection to external partners through web-services
- Data shared with CIT – better route planning, on-demand pick-ups and on-demand collections
- Data shared with bank – automatic crediting to retailer's account

### Cash Reporting

- Cash levels per denomination in real-time for the whole store
- Detailed transactions and collecting reports.
- Monitoring and Support
- Monitoring of technical performance including planning of cleaning and maintenance
- Remote support and technical monitoring by Gunnebo Service for increased uptime

### Benefits

- Improved in-store cash management
- Optimised control and planning
- Remote support and technical monitoring
- On-demand CIT cash delivery and pick-up
- Performance data shared with head office

## Product specifications

### Notes

Counting speed	3 notes/second
Note bundle	Deposit: up to 50 notes Dispense: up to 20 notes
Transport direction	Short edge first
Capacity	Recycling: 60 notes/drum; 2 drums/cassette; max. 3 cassettes (total recycling capacity 360 notes) Deposit: 1500 notes Loading: 500 notes Rejects: 20 notes
Safe	CEN I & III
Dimensions excl. screen (HxWxD)	1454x350x769mm
Weight	CEN I: approx. 485kg, CEN III: approx. 515kg excl. Coins
Power supply	120/240 V AC, 3/1,5 A, 50/60 Hz
Operating conditions	+5 to +40C, humidity 20-80%

### Coins

Bulk coin input	50 mixed coins per deposit
Coin input speed	5 coins/second
Bulk coin output	50 coins in a cup (Optional sorted coin dispensing in 8 cups)
Coin output speed	up to 24 coins/second
Estimated capacity (for EUR)	€0.01: 3,600 pcs €0.02: 3,150 pcs €0.05: 2,340 pcs €0.10: 2,340 pcs €0.20: 1,710 pcs €0.50: 1,350 pcs €1.00: 1,280 pcs €2.00: 1,260 pcs Total: 17,030 pcs
Overflow	1,900 pcs
Dimensions (HxWxD)	900x345x769mm

## Options

Barcode scanner, biometric fingerprint reader, RFID/NFC reader, camera, lockable cassettes, UPS, and monitoring software.
